

Confined space checklist			
check	yes	no	n/a
Are people required to enter into a confined space for work purposes?			
Has the confined space entry point been designed to reduce the risk of injury ie safe access, entry and exit?			
Is the work being done in the confined space compliant with Australian Standard AS 2865 requirements?			
When people enter a confined space is there another person present in the immediate vicinity outside the confined space?			
Have the people who supervise, enter, work near, purchase or maintain equipment, are likely or could be involved in any rescue or first aid procedure, received training on confine space entry in accordance with Australian Standard AS2865. Confined space training includes: - hazards in confined spaces; - assessment procedures; - control measures; emergency procedures; and - selection fit storage, use and maintenance of safety equipment.			
Is there adequate lighting for the type of work been done and the location?			
Are work practices arranged so that workers are protected from extremes of heat and cold?			
Are confined spaces monitored for hazards such as fumes?			
Has a documented risk assessment been carried out and completed and permit for entry been endorsed? <i>Risk assessment MUST comply to Australian Standard AS 2865 requirements?</i>
