

AGRICULTURAL SAFETY ADVISORY SERVICE

ThinkSafe provides free safety and health advice to eligible agricultural businesses (less than 20 full time employees). This is a **confidential** service and the consultant will not report back to WorkSafe on any aspect of your business.

ThinkSafe will arrange for an independent occupational safety and health consultant to visit your property and prepare a simple safety action plan. The service is also available to groups of business owners with a report prepared for the host property.

To access this service, please complete the details below and fax or mail the form to:
